

# Horizon XVu System Version 1.1 Release

Mennen Medical is pleased to announce the new release of version 1.1. The new software release will replace the existing version 1.0 and will be upgradable for existing XVu systems in the field.

## New Features:

- Fractional Flow Reserve (FFR) calculations
- F1 Quick key added for Post-Pullback analysis
- Automatic LV-AO Pullback
- Displaying and charting ST values
- Foreign Language Support
- User-defined, editable pediatric & peripheral sites

The new release ensures that you are up-to-date with latest Mennen recent developments.
